Summary

- Computer Science student at TU Delft (1520 SAT) with 34 months of experience leading mission-critical technical operations in an Intelligence Special Operations unit. Expert in system optimization, technical mentorship, and cross-functional team leadership. Seeking to leverage rigorous engineering foundations and a proven track record of operational success to drive impactful software solutions.

Education

DELFT UNIVERSITY OF TECHNOLOGY (TU DELFT) | DELFT, THE NETHERLANDS

BSc Computer Science and Engineering | September 2024 - Present (Expected July 2027)

- **Completed Courses:** Algorithms & Data Structures, Software Quality & Testing, Computer Organization, Web & Database Technology, Multimedia Processing, Information & Data Management, Automata, Computability and Complexity.

EASTERN MEDITERRANEAN INTERNATIONAL SCHOOL (EMIS)| RAMAT HASHARON, ISRAEL

International Baccalaureate (IB) Diploma| Sept 2019 – June 2021

- **Academic Honors:** High School Graduation with a Total Score of 38.
- **High-Level Classes:** Computer Science (7/7), Economics (7/7), Math Analysis & Approaches (6/7).

PROFESSIONAL EXPERIENCE

ISRAEL DEFENSE FORCES (IDF)

Technical Project Manager & Commander | Special Operations, Intelligence Corps | September 2021 – May 2024

- **Strategic Leadership:** Selected to manage a multidisciplinary team within a high-stakes unit to deliver mission-critical infrastructure, providing 24/7 support for global intelligence operations.
- **Process Optimization** Spearheaded a pilot program to modernize legacy workflows, resulting in a 1,000% increase in operational output by designing scalable systems that eliminated the need for outside consultants.
- **Full-Stack Solutions:** Designed and maintained unique technological products for the Intelligence community, providing **24/7 mission-critical support** for global operations.
- **Training & Mentorship:** Designed, commanded, and instructed a 4-month technical certification course for all future unit recruits, significantly accelerating onboarding and ensuring complete mission-readiness.

CAMP OSRUI SUMMER CAMP | WISCONSIN, US

Counselor | June - August 2024

- Facilitated intercultural mentorship and leadership for teens in a high-intensity, English-immersion environment.

PROJECTS & VOLUNTEER WORK

- **Administrative Software Development (EMIS):** Designed and programmed a custom software system for an international boarding school to automate teacher administrative tasks and streamline resource tracking.
- **Web Infrastructure Administration:** Managed school-wide web infrastructure and provided private English and Computer Science tutoring for 15+ middle-high school students.
- **Humanitarian Volunteerism (Uganda):** Traveled to Uganda to perform volunteer work in local orphanages, focusing on community assistance and youth development.

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript, C++.
- **Infrastructures:** Linux, Network Protocols, Cryptography, Virtualization, Client-Server Design, GUI.
- **Operational:** Agile Methodologies, Technical Documentation, 24/7 Mission-Critical Support, Mentorship.
- **Languages:** Native in English and Hebrew.
